Replace your Business Phone Lines and Leverage the Cost-Effectiveness of the Internet!

Comprehensive, Cost-Effective Business Phone Lines for Corporate/Remote Offices, Telecommuters, and Workers On The Go.

Clear Cloud ACCESS

Affiliated ComNet brings you Clear Cloud ACCESS business phone service - *saving you up to 70% over the cost of traditional business phone lines while delivering simple, reliable, comprehensive, business phone service.*

Affordability

Best of all, you can keep your traditional telephone system without incurring costs of upgrading or adding costly equipment. Clear Cloud ACCESS provides you with immediate cost savings from the first day of service.

Availability

With Clear Cloud ACCESS, you can route callers to the best staff members on the first attempt based on the number dialed, available personnel, time of day, region, language, and more. Clear Cloud ACCESS let's you serve callers before they become a customer of your competition.

Survivability

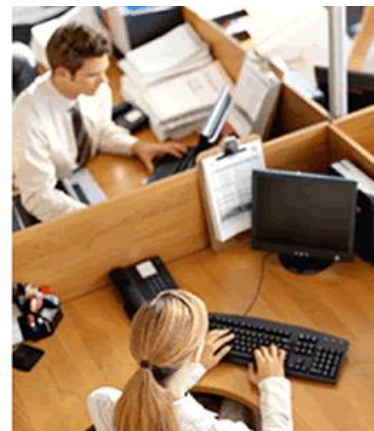

In the event of a network outage, power failure, or natural disaster, Clear Cloud ACCESS can be designed to provide continual business phone service – enabling you to perform 'business as usual'. If preferred, your local business phone service can also be transparently redirected to other personnel, or even regional or global offices – *ensuring maximum uptime while eliminating business interruptions.*

Flexibility

Automated Attendant, Dial-by-Name, Call Recording, and much more are also available to ensure maximum results for your specific business requirements.

Simplicity

Saving money, increasing your availability, maximizing business communications uptime, scaling with your business, and growing your revenues, *is easier than you might think.*
