

clear cloud **UNISON**

Business Phone System AND Business Phone Lines at a Lower Price Point than Business Phone Lines Alone!

*Comprehensive, Cost-Effective, Bundled Telephony Solutions for
Corporate/Remote Offices, Telecommuters, and Workers On The Go.*

Clear cloud UNISON

Affiliated ComNet brings you Clear Cloud UNISON – *the superior choice for business phone lines, business phones, and comprehensive applications at the most affordable rate.*

Affordability

Clear Cloud UNISON provides you with business phone lines, business phones, mobility solutions, and more – *typically at a lower price point than your legacy business phone lines alone.*

Survivability

In the event of a network outage, power failure, or natural disaster, Clear Cloud UNISON can be designed to provide continual business phone service. If preferred, your local business phone service can also be transparently redirected to other personnel, or even regional or global offices – *ensuring maximum uptime while eliminating business interruptions.*

Availability

Clear Cloud UNISON allows you to simultaneously ring your desk phone, other office phones, other offices, mobile phone, or the destination of your choice – ensuring your Availability to do business today before your callers become a customer of your competitors.

Flexibility

Automated Attendant, ACD, Dial-by-Name, Call Recording, custom announcements playing to callers on Hold, Scalability, and much more, are also available to ensure maximum results for your specific business requirements.

Simplicity

Saving money, increasing your availability, maximizing business communications uptime, scaling with your business, and growing your revenues, *is easier than you might think.*

Since 1984, Affiliated Communications has been providing high quality telephony services for enterprise customers with thousands of phones and multiple locations, small customers with only a few phones at one location, and customers with a wide variety of requirements in between. Affiliated Communications solutions and personnel are dedicated to helping customers shorten time-to-market while achieving a competitive advantage in their unique market segment. Affiliated Communications brings together experienced professionals, partners, programmers and technicians to assist our customers so that they can improve their business performance. Our combination of the latest technology solutions, technical expertise, and professional project management is second to none.
