Monitoring	$
Alarm notifications	$
Taxes	
Customer Cost	**$$$**

Left annotations

- Wholesale internet cost from all the best-of-breed vendors
- Reduce cost of copper, IP to copper or LTE to copper
- SIP Trunk services are smarter, less expensive, with inherent disaster recovery
- Adding second CKTs with dynamic routing options, alarming & monitoring
- Telephone systems onsite or in the cloud with UC, video collaboration and mobile capabilities
- Maintaining data systems from software updates to break/fix of hardware
- Protecting your organization from hackers and ransomware
- Manufacturer SaaS contracts including hardware and software maintenance with SLAs
- Monitor your systems and applications
- Notify us or you of problems in any technology areas

BENEFITS

▶ **Consolidate technology services into one clean bill and standardized cost**

▶ **Pay less for each service because you're receiving wholesale cost**

▶ **Eliminate fingerpointing between service vendors as we are controlling everything**

▶ **Frustration and time spent to fix issues go down**

▶ **Disaster recovery services and SLA (service level agreement) go way up**

▶ **Alarm notifications 24/7 to diagnose issues quickly**

▶ **Consolidate contract dates for easy renewal or purchase of new services**
